What is it?

OrthoEvidence (OE) is a global digital content provider of the best evidence in orthopaedics. OE identifies, analyses, summarises, and grades the top 5% of published content and makes it available in an easy-to-read ACE (Advanced Clinical Evidence) format for users.

How to Access...

Who is it for?

OrthoEvidence is subscribed by the Health Library and is made available to library users who specialise in orthopaedics and physiotherapy.

Log in

OrthoEvidence is accessed by individual username / password. Contact the Health Library to request a username / password. This is NOT an OpenAthens authenticated resource.
